

JOB ADVERT

GRADUATE CONTROL SYSTEMS ENGINEER

As a Graduate Control Systems Engineer, you will be at the forefront of technological innovation, working alongside experienced engineers to develop cutting-edge control systems solutions. You'll have the opportunity to gain hands-on experience while contributing to impactful projects across a variety of sectors.

ABOUT US

At Cetix, we are dedicated to shaping the future of control systems engineering. We provide innovative solutions to a range of industries, from manufacturing and energy to infrastructure and automation. Our goal is to empower the next generation of engineers by offering them the tools, knowledge, and support they need to succeed in this dynamic field.

WHAT YOU'LL DO

- Develop a strong understanding of PLC, SCADA, DCS, and automation systems in various industrial applications.
- Assist in troubleshooting, debugging, and optimizing control systems for performance and reliability.
- Collaborate with technical teams to align solutions with client needs and market demands.
- Engage in continuous learning through real-world, hands-on projects that accelerate your professional growth.

SKILLS & QUALIFICATIONS

- Bachelor's degree in Electrical, Electronic, Mechanical, or Control Systems Engineering (or a related field).
- Strong problem-solving skills and an eagerness to learn.
- Familiarity with PLC, SCADA, DCS, or similar control systems is an advantage.
- A keen interest in automation, robotics, and control systems technology.
- Excellent communication skills and the ability to work effectively in a team environment.

WHY CETIX?

Joining Cetix means joining a team that values innovation, integrity, and collaboration. We offer competitive compensation, comprehensive benefits, and opportunities for career advancement in a supportive environment where your contributions are recognised and rewarded.

Ready to forge connections and drive innovation? Apply now to join Cetix and make a difference in the world of technology. Do get in touch with us if you have any questions.

To Apply, please send you CV and covering letter/email to careers@cetix.co.uk
